EXPERIENCE

UI Developer / UI Designer Devmente | 2020 - Present

- I developed web applications in constant communication with clients to identify their needs and objectives.
- I designed and developed a system of components that can be reused, resulting in shorter delivery times for new projects.
- I fostered the use of collaborative web and mobile design tools to facilitate the workflow between design and development.

Architecture IT Internship Rimac Seguros | 2020 - Present

- I supported the architecture team in the dissemination of best practices and project guidelines of the company.
- I integrated a centralized data management system for the development and quality team, achieving a more efficient communication with the Chapter Leaders and Project Managers.

Web Developer Turismoi | 2019

- I implemented web style files that can be reused.
- I proposed tools for the efficient design of advertising mailings.

Web Content Editor Media Marketing Lab | 2019

- Improved websites, identifying design errors.
- Implemented Excel formulas to handle in less time the entry of Stock in the respective Ecommerce.

EDUCATION

Software Engineer Holberton School | 2020 - Present

Computer science school

Front End Developer Laboratoria | 2018 - 2019

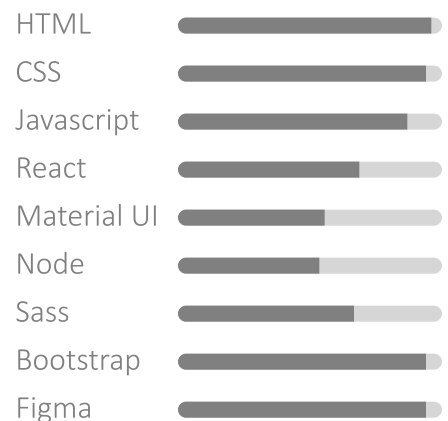

Intensive programming bootcamp
